The junior golf experience at the Summit Golf Club has created a home for the growth and development for the future of this game. We are going into our 5th year as a National Junior Development Centre, recognized by the PGA of Canada. Summit Golf Club is proud to be a part of a national community promoting junior golf at all levels on and off the golf course.

Our programs incorporate an active and healthy approach to the game of golf, as well as life, off the golf course. Physical and mental development is the foundation to a golfer's progression as a player and as a person. Starting from the first swing, our programs use a structured skill development pathway supported by the PGA of Canada. Sport Canada has created Long Term Athlete Development guides in all sports and works in partnership with the PGA of Canada. They have teamed up to provide a nationwide foundation to structuring the development of a player from beginner to the highest level of performance they want to achieve.

Our Director of Instruction, Jon Blomme, brings over a decade of coaching experience to the Summit Golf Club. His programs have taken players from beginners to tournament winners. Junior golf has never looked stronger since Jon's arrival. Trevor Wallman, Assistant Teaching Professional, continues to grow the game with increasing numbers in beginner programs every season. Junior golf, with the support of an experienced coaching team, continues to grow and improve every season as one of the best junior golf programs in the GTA.

The support of our Director of Golf and former PGA Tour Professional, Ian Leggatt, opens the door to young aspiring players. Junior golfers learn not only how to play the game but also acquire the life lessons they'll need to become active, healthy, young adults. Summit Golf Club is extremely passionate about promoting junior golf as the foundation for the future of our game.

Parenting

There are 3 stakeholders which will determine the success of your child.

1. **Parents** – Their role is to support their child and give advice on life not golf. Parents should try and make their kids feel safe to make mistakes when playing golf. Parents who put pressure on their kids to perform now are detrimental to the success of their child.
2. **Coaches** – Their role is to analyze, teach and provide advice on golf. They are skilled at offering constructive criticism. A coach's job is to develop the child into a good player over time by adding layers of teachings. Trying to become the best 13-year-old golfer is a shallow endeavour and does not lead to long term success.
3. **Player** – Their role is to fully commit to the coaching program. It is simple, show up and listen. Kids should ask lots of questions and have fun.

If all three stakeholders do their job, the child will develop to the best of their abilities. It is very rare to have all three in check but the kids who do are the happiest.

THE ROAD TO THE FIDELITY CUP.

The Junior Performance Team will see the return of the Fidelity cup in 2018. The performance team has the opportunity to compete in weekly league play along with Major events to earn points throughout the entire year. Similar to the PGA tours FedEx Cup, we conduct a season long points system. The program promotes participation, consistency, and develops a great group of friends. In 2017 we had a strong presence in our Girls Division with 4 girls finishing in overall Top 10 points total at the end of year. We conclude the season with our Fidelity Cup Dinner and trophy presentation. We take this time to give thanks to our players, sponsors, and recognize everyone involved in the program.

See descriptions below for further details about this program.

The Road to the Fidelity Cup points system was introduced in 2015 and sponsored by Fidelity Investments. Summit is honoured to receive \$1000 each year sponsoring the program for the Summit Golf Club which is exclusive to its junior members. We thank Fidelity Investments for their continued support in creating a unique program for junior golf in Canada.

The Fidelity Cup has been proudly sponsored by

"At Summit, we are growing the game."

COMPETITIVE COACHING PROGRAMS

All competitive coaching programs are organized and run by Jon Blomme Summit's Director of Instruction and Golf Canada Coach. These programs are age appropriate and in alignment with Canada's Long Term Player Development Plan.

The Summit Junior Performance Team (Ages 12-17)

The Junior Performance Team is the most advanced program and produces many tournament champions. This is our highest level of performance for a junior golfer and will give participants the skills they need to win tournaments and take their game to a Varsity level. The New Competitor program is bridging the gap for kids who want to aspire to be on the Junior Performance Team.

This program has helped many young golfers learn how to play competitive golf and how to perform at the highest levels. We have had over 10 juniors win outside tournaments over the past few years. This year the players will learn strategy at a deep level, rules of golf every week, they will improve skills and scoring. We will also train physically for golf and go through cutting edge mental training.

JUNIOR CAMPS

Junior golf camps return to the Summit Golf Club in its third year as a National Junior Development Centre by Golf Canada. Our junior camp philosophy touches on the physical skills needed for an active lifestyle and character development through fun games and team activities.

Participants have the opportunity to create a CN Future Links junior profile. This profile tracks progress through four stages of golf skill development. Kids will receive a Puma golf hat from CN Future Links as each stage is passed. They will also receive a progress report highlighting skills and areas to develop along with junior camp handouts.

Healthy living and character development are a key aspect to Golf Canada's program. Honesty, sportsmanship, and golf etiquette are the under layer for our programs to give participants the keys to become more successful on and off the golf course.

Lunch is included with a healthy snack every day. Full day camps will receive lunch and snacks in the morning and afternoon. MEMBERS AND NON MEMBERS ARE WELCOME.

CN FUTURE LINKS NATIONAL SKILLS CHALLENGE

Summit Golf Club hosted the CN Future Links Skills challenge in 2015 and returns in 2018. The program has been developed by Golf Canada as a National Skills Challenge for junior golfers. Participants will be tested on four fundamental golf skills: Driving, iron play, chipping and putting. The difficulty of each test is determined based on boy/girls and age categories.

We had some impressive results in the 1st National Skills Challenge at the Summit Golf Club. Results for each age + boys/girls category are posted on the CN Future Links National Skills Challenge website for participants from across Canada. The top finishers in each category will have the opportunity to compete at the RBC Canadian Open.
